PLANTING SEEDS OF ETERNAL PURPOSE

COVID 19 Guidelines

Student Guidelines

- As with any illness, parents are responsible for checking the health of their student(s). Consistent with the contagious disease policy (page 12 of the handbook), if the student is running a fever or is otherwise ill, they should remain home until they well.
- Students taking the public-school bus in their own districts will need to adhere to the guidelines set for their school or transportation company. Follow these guidelines in the morning until entering the building and be appropriately masked when leaving the building at the end of the school day. *If you have not received a copy of the guidelines for your district, contact the Gateway office as we may have a copy on hand.*
- A hand sanitizer station will be located in the hallway just inside the main door. Students should utilize the hand sanitizer upon arrival. Because of the use of student offices in each learning center with separate dividers between offices, students will **NOT** be required to wear masks during the day. If the student's parents desire, they can have their student wear a mask. Please let the office know if this is your desire so we can remind the student appropriately.
- Students are also expected to maintain appropriate social distancing when moving through the hallways, during gym class or when seated in the chapel or cafeteria.
- A hand sanitizer station will be located at the entrance to lunchroom.

Visitor Guidelines

- Visitors to the school should also use the hand sanitizer station located in the entrance hallway.

Updates to Guidance

- The response of various government agencies to this pandemic continues to be inconsistent and rapidly changing. Each school district also is reacting differently to the changing environment. Thus, Gateway will also need to be responsive to this changing environment. We will make every effort to notify parents if changes to the above guidelines are needed.
- If some school district moves to a closed status while others are open, we will follow the same procedures the inclement weather procedure (see handbook page 24).
- If the school is required to close by the state, we will follow the same type of procedure that was used in the spring of 2020. Details will be determined at the time of the closure and will be communicated to each family.
